Sure, no problem. See below, please. Do you want us to start putting together data summary tables which list the sample IDs, the residence the sample was collected from, analytical results, and water quality measurements?

Ex. 6 - Personal Privacy

Let me know if you have any questions, please.

Thanks,

Ex. 4 - CBI can you give me a list of the sample numbers and associated addresses?

Thanks

Subject: prelim VOC results

Greg,

We're starting to get preliminary results back. Attached are the VOC results. To summarize, no VOCs were detected in any of the samples collected, with the exception of tetrachloroethene, in sample RW-002 (76 Red Hill Road, New Oxford, PA) at 1.1 ppb. I would tend to think that this result is not associated with contamination from the Miller fire though.

The preliminary report is attached, please let me know if you have any questions.

Thanks,

Ex. 4 - CBI
